1. How many chapters are in this book? _____

2. In which chapter would you look to find out about cows? _____

3. On which page does Chapter 3 begin? _____

4. On which page is there information about rocks? _____

5. Which reptiles does the book discuss? _____

Home Activity Your child learned about parts of a book, including how to use the table of contents at the front of the book and index in the back. With your child, look at a nonfiction book. Ask your child to find the title and author's name on the cover. Look at the table of contents together. Take turns using the index to find the location of specific topics in the book.
